

**재단기/Cloth Cutting Machine**

**KM-AXQ 7" 8" 10" 13"**

- Originally developed motor assures a smooth cutting operation with excellent cutting power and low motor temperature.
- Oil can be supplied automatically from oil reservoir to the guide metals and cross head.
- There is an abrasive belt sharpening device. Just press down the sharpening lever, and the blade can be sharpened automatically to maintain the most suitable edge of the blade.
- Thinner and flat type stand makes the resistance of cutting material lower, and bigger blade stroke cutting smoothly.
- The base plate is low and the surface is smooth to make the material travel on it smoothly before and after cutting.
- Fan-guard and starting switch cover are equipped for safety reason.
