

**로타리프레스 /Rotary Press**

**SDY-9000, 9000F**

**SDY-9000**

- 각종 주머니 접기와 심지를 접착할 수있는 기계로서 어떠한 소재의 원단 및 심지라도 정확한 가압력과 고른 열 분포로 최상의 제품을 생산할 수있다.
- 로울러 드럼에 밀림방지 기어를 부착, 절대로 밀리지 않고 정확히 가동된다.

- The machine can be automatically controlled by belt controller(electronic controller) which makes the belt durable.
- Micro switches attached at left and right sides of roller prevent automatically the belt moving from side to side.
- More than 40% of power can be cut down by attaching special heater device and thermostat.
- Temperature, speed, and pressure can be controlled freely.
- Operation is easy, operating man power can be reduced, and the machine curtails the cost of production by good productivity.
- This machine can be easily installed even at narrow spaces.

**SDY-9000F**

**로라휴징프레스/Roller Fusing Press**

**SDY-450**

- Easy fusing for large material & partial fusing works.
- Electronic thermostat for accurate temperature control.
- Belt guide with snap for the belts not to move to left nor right.
- Wrinkle preventing structure for belts.
- Shirts welding, Burberry welding.
- All sorts of forming.

- Power :220V/1P
- Power Consumption :2,800W/h
- Usage : All the fusable for Coat, Shirts and so on.
- Working width :430m/m
- Size :1,250×850×600m/m
